CROSBY 200 CELEBRATION

Bicentennial preparations continue at a frenzied pace

Thousands expected for Bicentennial Events on Saturday, September 23

Star-Courier SOUVENIR EDITION for Crosby 200

This special Souvenir Edition of the STAR-COURIER will run the week leading up to the celebration on Sept. 23 and includes a history of Crosby's last 200 years with vintage photos, a map of the parade route, a map with the location of all booths and activities, and a timeline of all activities planned for the weekend plus much more.

You are invited to be included with a Congratulations ad! See rates and sizes available on Page 6 of this issue.

Your message will also be included in the Time Capsule.

By David Taylor Managing Editor

The final meeting of the Crosby Bicentennial Committee ended last Thursday with a group photo and committee members taking loads of signs to post throughout the community. Permits have been approved and signage will be appearing throughout the community if not already.

"It's been a marathon," said Donna Davenport of the Crosby Historical Society who is partnering with the Crosby-Huffman Chamber of Commerce to host the event.

The committee was formed and has met for the last 18 months discussing their vision and now the reality of those plans is days away from occurring.

"It's amazing," Davenport said. "We now have more than 90 vendors scattered throughout the fairgrounds," an exceptional

Chairpersons from the Crosby Bicentennial Committee met last Thursday to finalize plans for the big birthday bash for the community. Front row from left, Michelle Thompson, Precinct Three; Co-Chairman Kim Harris, Chamber of Commerce; Co-Chairman Donna Davenport, Crosby Historical Society; Andria Flowers-Ginn, Scouts; Belinda Parker, vendor chairman; and Cindy Campbell, vendors. Back row, from left, Russell White, Crosby Volunteer Fire Department; Karen Foster, car show; Gene Hicks, Crosby Fair & Rodeo liaison; Jody Fuchs, Crosby Historical Society; Belinda Armstrong, cookbook chair; Delores Casey, static displays and large vehicles; Suliman "Sam" Al- Rasheed, community representative; Eddie Foster, parade and entertainment chair; Jayne Ann Clifton, auction chair; Larry Koslovsky, Chamber of Commerce; and Terry Barnett Perkins and her husband Darrell, community representatives.

participation for such a small community.

Many of those are from the dozen or more churches participating who will have games and challenges for kids to participate in.

Most everything is free to the community with a few exceptions, including parking which is \$5 to park at the rodeo fairgrounds. The money is a fundraiser for the Crosby Young Farmers who will also by handing out two Crosby Bicentennial keepsake buttons per car, first come,

Here's an abbreviated timeline of the events oc-

first served.

curring throughout the day.

8:00 AM Lineup for the parade begins in the East Parking Lot of the CHS football stadium. The parade route begins at Crosby Middle School and proceeds north down FM 2100 to Wahl Street. The

procession will make a left at Wahl and head west to FM 2100. They will make a left back onto FM 2100 south and return to Crosby Middle School. The public is invited to line the route on both sides and urged to use caution. Bring your lawn chairs, cameras, and friends for Crosby's largest-ever parade!

10:00 AM A cannon from The Alamo in San Antonio, Texas will fire from the front of the parade signaling the beginning of what organizers are promising to be the largest in Crosby's 200 years. Parade organizer Eddie Foster estimated more than 500-plus people would be in the parade, including the Crosby Big Red Machine band, the Cougar Star Dance Team, JROTC,

Rotary Washer Tournament raises fun, and funds for R.I.

HIGHLANDS – About 20 teams competed last Saturday in the Highlands Rotary Club's annual Washer Throwing Tournament. The event was held at Charlie's Ice House on Main Street.

Excellent play from several throwers made this an exciting tournament, with the final winning team determined by a play-off after the top two teams tied with perfect 100 scores.

Winning teams were: #1 - DIAMONDS IN THE ROUGH, Billy Young, Norman Adkins

#2 - DOUBLE TROUBLE, Bryan Teel, Bobo Cotten

Rotarian Connie Russell (center). L to R, Kim Adkins, Billy Young, Connie, Norm Adkins, and club president Denise Smith. Billy Young also won the prize for best scorer in the Tournament.

Each year the ROTARY TROPHY is awarded to the Rotarian with the best score. This year is was won by Team Izzy, Ruben and Mini Izaguire, presented by club president Denise Smith.

#3 - THE STOCKWELLS, Theron Stockwell, Teary Stockwell

The Rotary Trophy was won by Ruben and Mini Izaguire, who will keep it for a year until next tournament.

A live auction helped with the fund raising. Two beautiful handmade quilts, donated by Connie russell, brought over \$1000 dollars. A liquor wagon and a giant TV were included.

The tournament is a fundraiser with all proceeds going to Rotary International for their Polio Plus and other worldwide projects. Each year Highlands Rotary raises almost \$10,000 for this cause.

Another attempt to install barge moorings in the SJ River

By Carolyn Stone Opinion Special to the Star-Courier

CHANNELVIEW This Labor day weekend some community members received by mail from the US Army Corps of Engineers notice of another Holtmar Land LLC Letter of Permission (LOP) SWG-2015-00855 dated 08/29/ 23. Holtmar Land LLC is a.k.a. Buffalo Marine Service, Inc. The LOP's Applicant Point of Contact is Tim Studdert. Tim Studdert is the Vice President of Buffalo Marine. The LOP SWG-2015-00855 is the 5th attempt by Holtmar to receive a USACE permit to dredge approx. 15,000 cy

(405,000 cf) from an approx 2.5 –acre area of the San Jacinto River (SJR) north of I-10 East and to install three (3) 36-inch steel monopile moorings within the SJR in the area along properties Holtmar owns at 17525, 17601, 17603, 17605 & 17607 River Rd. in Channelview.

The proposed location is in a FEMA Special Hazard Flood Area, is a Harris County Flood Control Floodway, is a Harris County Flood Mitigation Area under HCFCD buyout, in a protected blue crab, shrimp, flounder and speckled trout estuary of the San Jacinto River, in the Area of Con-

cern for the SJR Waste Pits Superfund Site and in close proximity to residential homes.

Our communities are very aware of the havoc raised by the SJR flood waters in the area from the banks of Highlands and Baytown to Magnolia Dr. in Channelview which includes this project's location and the dangers and damages caused by the barges in the area. Barges in the proposed area will potentially send barges onto the properties in the San Jacinto River Estates , Meadowbrook Park, onto I-10 itself and increase the

Ganders outlast Crosby in fiery finish, 43-42

By David Taylor Managing Editor Star-Courier

Crosby must have felt comfortable as they led 28-14 late in the third quarter over district foe Baytown Lee at Stallworth Stadium last Friday night, but then the house fell in. The Gander offense reeled off four touchdowns beginning late in the third quarter and finishing up with seconds remaining in the final stanza to eke out a tight win over the Cougars, 43-42.

Early on, the contest was a see-saw battle between the two in the first district game of the season.

After two four-and-outs for both teams, the offenses began to gain traction.

Lee's QB Levay Duncan scored on a two-yard run with 3:44 remaining in the first quarter capping an 11-play, 80-yard drive for the Ganders. Andres Guzman added the PAT and the Ganders led early, 7-0.

Crosby's Kade Eudy connected on a 26-yard pass to Brandt Wright with 14 seconds left in the first quarter and then added the PAT to knot the score at 7 all.

Ganders went 70 yards in five plays to hit pay dirt with a 1-yard plunge by QB Duncan with 10:19 left in the second quarter.

On the next series, the

Eudy led the Coogs back down the field with an 11play, 75-yard effort and a two-yard run for a TD by Levi Fontenot tying the score again at 14 all.

Brandt Wright intercepted a tipped Gander pass at the Crosby 21-yard line and returned it to the Lee 38.

Eight plays later, Eudy rewarded Wright with a 16-yard TD pass. Eudy's PAT gave the Cougars a 21-14 lead at the break.

Coming out of the half, the Coogs were looking for separation fearing a seesaw battle with the Ganders the rest of the game. With their first possession, Eudy alternated handing the ball off to Fontenot and RB Wesley Yarbrough as they marshaled an extend-

Senator Borris Miles criticizes Barber's Hill ISD for continuing to sanction a student over Hair Length

Statement by Texas Senator Borris L. Miles:

"I am calling for Barbers Hill ISD to remove Darryl George from in-school suspension and to revise their dress code to come into compliance with the CROWN Act. It is unbelievable that the district whose discriminatory actions led to the creation of the CROWN Act is the first to defy the new law.

Claiming that Darryl is violating a hair length policy is simply a backdoor method to continue discriminating against students with natural hair. The bipartisan CROWN Act passed the Legislature overwhelmingly and is now the law of this state. It's time for Barbers Hill ISD to comply with the law."

STATEMENT FROM BARBERS HILL ISD in response to Sen. Miles comment: "The Barbers Hill ISD

dress code is not in conflict with the CROWN Act"

--David Bloom Director of Communications Barbers Hill ISD

Congressman Brian Babin is speaker at the Mont Belvieu Chamber of Commerce

Thanks to the Mont Belvieu Area Chamber of Commerce for inviting me to provide a legislative update on Tuesday! I hit on several issues important to our region, including energy independence, fiscal security, the Coastal Barrier, and local priorities for the next Water Resources Development Act.

Fatal Accident on IH -10 Bridge Claims one life

Chambers County Sheriff's Office- Sheriff Brian Hawthorne reports on September 9, 2023 at approximately 1:20 pm, Sheriff's Deputies and Texas DPS Troopers responded to a major accident at the 806 mile marker eastbound on Interstate 10.

Preliminary information shows that a construction style front end loader was traveling eastbound on the Interstate 10 Trinity River Bridge being followed by another vehicle with its hazards on. As the front end loader was coming down the other side of the bridge at a slow rate of speed, a semi truck traveling in the same direction struck the rear of the passenger vehicle and front end loader.

Texas DPS has confirmed that this crash is a fatality, with the driver of the pas-

Authorities clear debris in the distance, from the IH-10 bridge over the Trinity River after a semi hit a slow-moving construction vehicle.

senger vehicle which was following the front end loader succumbing to their injuries. This is still an active investigation being conducted by the Texas Department

of Public Safety.

"We ask that our community keeps the family of the deceased in their prayers as they work through this trying time." Said Sheriff Brian Hawthorne.

Commissioner Buckingham Prioritizes Coastal Protection - Allocates \$10 Million to Plug Abandoned Wells in Trinity Bay

AUSTIN— Today, Texas Land Commissioner Dawn Buckingham, M.D. announced the allocation of \$10 million from the Texas General Land Office's (GLO) Surface Damage Account to be used for the plugging of orphaned oil and gas wells in Trinity Bay in Chambers County, Texas.

"As someone who was raised near the coast and lived in Galveston for over a decade, I am committed to safeguarding our shoreline and ensuring the stewardship of

One example of an abandoned well in Trinity

Bay our coastal lands, habitats, and ecosystems they support," said Commissioner Buckingham. "This partnership with the Railroad Commission is vital, and I am thankful our agency was able to provide resources for this significant project of safely plugging these wells."

The Texas General Land Office entered into a memorandum of understanding with the Railroad Commission (RRC) to provide \$10 million in funding for the plugging of these abandoned wells. Unplugged wells can prove to be an environmental hazard, and the forty-seven wells in Trinity Bay pose the most risk to wildlife in the area.

most risk to wildlife in the area.

The GLO is committed to providing support for orphan well plugging in Trinity Bay. While the RRC is the state agency with the authority to plug wells, the GLO is responsible for ensuring prevention and response to oil spills in the state's coastal bay systems. Additionally, the GLO stands ready to support the removal of aging infrastructure that contributes to coastal oil spills.

contributes to coastal oil spills.

The total amount of \$10 million

granted to the RRC from the GLO to plug the wells is drawn from an account funded in part by the oil and gas industry for reclamation purposes on Permanent Fund School (PSF) properties, such as Trinity Bay. The PSF is a constitutionally created fund that benefits public schools in Texas. The royalties paid for oil and natural gas production on PSF lands are deposited into the fund.

Plugging these wells will ensure the safety of Texans, wildlife, and ecosystems in the area

New Harris PROSPERS Plan Maps Out Pathways to Success for Harris County Families

The unveiling of the new initiative Harris PROSPERS on August 10th. Commissioner Rodney Ellis at the podium.

Every person in Harris County deserves a stable foundation and a clear path to prosper, thrive, and build a better life for themselves and their families. Yet, according to recent data, half of Harris County residents can't afford a \$400 emergency, and one in five households earns less than \$25,000 annually.

That is why on August 10th Harris County unveiled Harris PROSPERS (Pathways to Realize Opportunity, Security, Potential, Equity, Resilience, and Safety), a plan to accomplish two goals: creating paths to jobs and opportunity and ensuring families have the basic building blocks to succeed.

To learn more about Harris County's commitment to prosperity for every family and the programs that encompass Harris PROSPERS, visit HarrisProspers.com.

Funding Approved for TeleDeputy Unit to Speed Up Response to Emergency Calls

In recent years, population growth and staffing challenges have contributed to the Harris County Sheriff's Office receiving a much higher volume of emergency calls resulting in longer response times to the scene of the crime. However, not all of these emergency calls are actual emergencies requiring an officer to physically respond.

To help meet demand and free up officers needed for emergencies, Harris County Commissioners Court has approved \$1.7 million to fund a new TeleDeputy program to allow officers to respond remotely to non-emergency calls, such as needing to file a police report after a car break-in or reporting an abandoned vehicle. The TeleDeputy program is expected to reduce response wait times from an average of over 14 minutes to less than 10 minutes. The new TeleDeputy Unit is another example of how Harris County is giving law enforcement the 21st-century tools they need to do their jobs most effectively, and ultimately better protect the community.

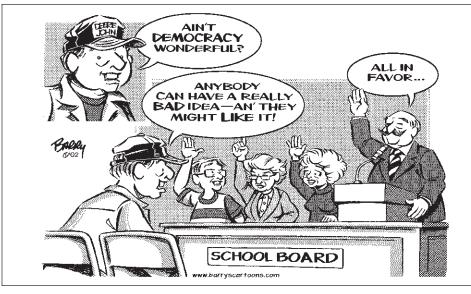

County Breaks Ground for New Building for Hay Center

At the Hay Center Groundbreaking on June

Every year in the Houston area, more than 200 youth exit the foster care system when they reach adulthood or graduate high school. Nationwide, 20% of kids who age out of foster care become instantly homeless. Without traditional family support and community connections, many youth will face unstable housing and have a greater risk of homelessness.

The HAY Center, a program of Harris County Resources for Children and Adults, has provided comprehensive, wraparound services for these foster youth in Harris County since 2005, and has helped thousands of young people in Harris County get access to the education, employment, mentoring and health services they need. In June, Harris County broke ground on a new campus that will, for the first time, give the HAY Center the capacity to actually house youth with its 50 on-site apartment units. The new campus will also provide wraparound services including therapy, employment assistance, transportation, and more for 1,300 additional foster youth in the county. Construction is scheduled to be complete in Summer 2024.

STATE CAPITAL HIGHLIGHTS **By Gary Borders**

Hundreds of New Laws go into effect on September 1st

HUNDREDS OF NEW LAWS GO INTO EFFECT

A total of 774 new laws went into effect on Sept. 1, affecting Texans in many areas of their lives, the Austin American-Statesman reported. The new laws concern property taxes, registration fees and voting access, among other issues. Several have drawn court challenges from opponents.

A few examples of the new laws include:

--Book vendors must create a rating system for books deemed "sexually relevant" or "sexually explicit." House Bill 900 is currently being challenged in an Austin federal courtroom by several Texas book sellers. Other major legislation concerning schools provides nearly \$330 million over the next biennium to increase school safety infrastructure and resources.

-- The cost of a new electric car goes up \$400 after Senate Bill 505 passed both chambers unanimously, adding a new registration fee. In addition, owners of existing electric cars now must pay a new \$200 annual registration fee, with the money from both fees going to the state highway fund, which is primarily financed by gaso-

--Governmental entities in Texas are now banned from implementing COVID-19 restrictions, such as vaccine mandates or requiring the wearing of masks under Senate Bill 29.

LAW ERODING LOCAL POWER **RULED UNCONSTITUTIONAL**

A Travis County judge last week declared unconstitutional a new state law stopping cities and counties from passing ordinances that go beyond what is allowed under state law. The ruling came just before the so-called "Death Star" bill went into effect, the Texas Tribune reported.

The state has appealed the ruling by State District Judge Maya Guerra Gamble. Local officials across the state's urban areas blasted the law as an overreach that prevents them from meeting local needs, such as providing water breaks to construction workers. That municipal requirement is now banned under state law.

Houston Mayor Sylvester Turner hailed the ruling.

"The Governor's and Legislature's ongoing war on such home-rule cities hurts the state and its economy, discourages new transplants from other states, and thwarts the will of Texas voters who endowed these cities in the Texas Constitution with full rights to selfgovernment and local innovation," Turner said in a statement. "This self-defeating war on cities needs to end."

Gov. Gregg Abbott defended the bill, saying, "Texas small businesses are the backbone of our economy. Burdensome regulations are an obstacle to their

PAXTON TRIAL COMPLETES FIRST WEEK

The first week of suspended Texas Attorney General Ken Paxton's impeachment trial in the Senate ended with his former lead law enforcement officer testifying an Austin developer alleged to have bribed Paxton constructed a "conspiracy theory" that federal officials altered a search warrant for his property, the Austin American-Statesman reported.

David Maxwell, the former AG official, said real estate developer Nate Paul pushed Paxton to investigate federal law enforcement agencies probing his business. Paul has since been indicted for inflating his assets on loan applications. Paxton aides looked into Paul's allegations at Paxton's request but concluded they were meritless.

"My feeling was Nate Paul was a criminal and we should not be associating with Nate Paul," Maxwell testified.

Maxwell was ultimately

fired by Paxton for insubordination after he resisted investigating Paul's allegations. Paxton blames the im-

peachment on his political opponents. He appeared on the first day of the trial but has not been in the Senate chamber since then.

APPEALS COURT: BUOYS CAN STAY FOR NOW

A federal appeals court last week stayed a federal district judge's ruling that the floating barrier installed by the state in the Rio Grande to stem illegal entry by migrants violated federal law and treaties.

A three-judge panel of the 5th U.S. Circuit Court of Appeals temporarily halted U.S. District Judge David Ezra's order that the 1,000-foot barrier near Eagle Pass be removed by Sept. 15, pending an as-yet unscheduled hearing.

The U.S. Department of Justice filed the lawsuit, saying the buoys violated an 1899 federal law that forbids unauthorized construction in navigable waterways, The Dallas Morning News reported. Gov. Greg Abbott argued the river is too shallow to be navigable and that an "invasion" of migrants and drug smugglers made it necessary for the state to defend itself.

"Texas has clear constitutional authority to defend its territory against the invasion that Governor Abbott has declared," the state told the lower court last week. Ezra rejected that argument, saying by that reasoning the state could declare an invasion and wage war at will.

Mexican authorities have lodged formal diplomatic complaints, and critics of the buoys in the United States called them inhumane.

ERCOT CALLS FOR POWER CONSERVATION

For the first time this summer, the Electric Reliability Council of Texas last week declared an emergency, introducing the possibility of rolling blackouts to stabilize the state's power grid.

A sudden drop in power reserves last Wednesday night caused the system to lose more power than expected, prompting the first emergency alert since Winter Storm Uri in February 2021, according to kut.org.

The emergency lasted about two hours, though the next day, for the 11th time, ERCOT asked Texans to conserve power as continued extreme heat pushed electric usage close to its capacity.

Texans have experienced the second-hottest summer on record, the Texas Tribune reported, with an average temperature of 85.3 degrees between June and the end of August. That average is just behind the record set in 2011, when blistering heat and dry conditions pushed the average temperature to 86.8 degrees, and wildfires swept the state.

The good news is that the heat wave is expected to finally break this week, with rain expected and temperatures dropping down well below the triple digits that much of the state has weathered since June.

Circumstantial Evicence

"My mother reluctantly adopted Stubby after the tragic loss of half his tail last year. He went from her archenemy to her best friend, and now my mother feeds him every day. He has become quite tame and is clearly devoted to my mother and so, naturally, every time I chat with my mom, I ask how Stubby is doing.

Apparently, Stubby got into some trouble."

The Postscript by Carrie Classon "Circumstantial Evidence"

It was time to come back from

It wasn't because of the weather. The weather was wonderful. The nights up in the mountains were cool, and the days were warm, and sometimes, in the afternoons, a thunderstorm would roll in, and a refreshing rain would fall, leaving the air clean and sweet. No. It wasn't the weather.

And it wasn't really my family-although, I do miss them. My parents have been in the thick of summer activities at their cabin by the lake. They had lots to do and lots of visitors, and I knew they were doing well. No. It wasn't my family.

The truth is, I heard some concerning news about Stubby, my mother's pet red squirrel, and I thought it was time I went to visit him to make sure everything

My mother reluctantly adopted Stubby after the tragic loss of half his tail last year. He went from her archenemy to her best friend, and now my mother feeds him every day. He spent the winter under their deck, digging tunnels through the snow to get to the treats my mother left under the bird feeder. He has become quite tame and is clearly devoted to my mother and so, naturally, every time I chat with my mom, I ask how Stubby is doing.

Apparently, Stubby got into some trouble.

According to my mother, their neighbor, Rod, painted his deck recently. I can picture Rod's deck. It is a cheerful blue and has bright yellow flowerpots and patio furniture on it. It's a beautiful deck, but keeping it that color requires a bit of upkeep. So I'm assuming that when there was no rain in the forecast, Rod got out there to paint the deck.

At this point, I would like to emphasize that there is no proof whatsoever of Stubby's guilt.

According to Rod, whose house is next door, his work was spoiled with little squirrel tracks all over his newly painted deck. Rod was not happy. He told his wife that he was going to get some squirrel traps and catch whoever ruined his paint job and deposit them far away.

Rod would never kill a red squirrel, but I can imagine he was pretty angry about the deck and would be willing to drive quite a long way to relocate whoever had left paw prints all over it.

Char, Rod's wife, was chatting with my mother last week, and she told Mom about Rod's plan.

"Oh. no!" my mother said. She told Char she wished Rod wouldn't do that, but she never heard back, and she hadn't seen Rod or Char since.

"I haven't seen Stubby all day," my mother wrote me. "Should I be worried?" And she signed her note, "Stubby's friend and protector."

And that was how the story was left.

There is a lot I don't know. First—and most importantly there is no evidence that it was Stubby who ruined Rod's deck. Stubby is missing his tail, not a paw, and his tracks would look like any other red squirrel's-including the very wicked squirrel who ran across that fresh blue paint.

And I never heard back from my mother. Surely, she would have called me in Mexico if Stubby had gone missing for more than 24 hours. So now I am planning a visit to check up on my

mom and my dad—and Stubby. But I will tell you right now, if I happen to notice a slightly blueish tint on Stubby's feet, I do not plan to say a word.

Till next time, Carrie

LEGAL NOTICE LEGAL NOTICE LEGAL NOTICE LEGAL NOTICE LEGAL NOTICE LEGAL NOTICE

EXPLANATORY STATEMENTS FOR THE NOVEMBER 7, 2023 CONSTITUTIONAL AMENDMENT ELECTION

Proposition Number 1 (HJR 126)

HJR 126 proposes a constitutional amendment to protect a person's right to engage in generally accepted farm, ranch, timber production, horticulture, or wildlife management practices on real property that the person owns or leases. The proposed amendment would not affect the authority of the legislature to authorize the regulation of these practices by: (1) a state agency or political subdivision as necessary to protect the public health and safety from imminent danger; (2) a state agency to prevent a danger to animal health or crop production; or (3) a state agency or political subdivision to preserve or conserve the natural resources of the state under the Texas Constitution. Additionally, the proposed amendment would not affect the legislature's authority to authorize the use or acquisition of property for a public use, including the development of natural resources under the Texas Constitution.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment protecting the right to engage in farming, ranching, timber production, horticulture, and wildlife management."

Proposition Number 2 (SJR 64)

SJR 64 proposes a constitutional amendment to allow the governing body of a county or municipality to exempt from property taxation all or part of the appraised value of real property used to operate a child-care facility. The proposed amendment would authorize the governing body to adopt the exemption as a percentage of the appraised value of the property, but that percentage could not be less than 50% of the appraised value of the property. The proposed amendment also would allow the legislature to define the term "child-care facility" and to establish additional eligibility requirements to receive the property tax exemption.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing a local option exemption from ad valorem taxation by a county or municipality of all or part of the appraised value of real property used to operate a child-care facility."

Proposition Number 3 (HJR 132)

HJR 132 proposes a constitutional amendment to prohibit the legislature from imposing a tax based on the wealth or net worth of an individual or family. The proposed amendment also would prohibit the legislature from imposing a tax based on the difference between the assets and liabilities of an individual or family.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment prohibiting the imposition of an individual wealth or net worth tax, including a tax on the difference between the assets and liabilities of an individual or family."

Proposition Number 4 (HJR 2- Second Special Session)

HJR2 proposes a constitutional amendment to modify certain provisions of the Texas Constitution related to property taxes. The proposed amendment would authorize the legislature to temporarily limit the maximum appraised value of real property for property tax purposes in a tax year. The proposed amendment also would increase the mandatory homestead exemption for school district property taxation from \$40,000 to \$100,000. The proposed amendment would require the legislature to provide for a reduction in the amount of the limitation on school district property taxes imposed on the residence homestead of the elderly or disabled. Additionally, the amendment would exempt appropriations not dedicated by the Texas Constitution and used for property tax relief from being considered as appropriations when determining whether the rate of growth of appropriations in a biennium has exceeded the constitutional tax spending limit. The proposed amendment would further authorize the legislature to provide that members serving on an appraisal board in a county with a population of at least 75,000

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize the legislature to establish a temporary limit on the maximum appraised value of real property other than a residence homestead for ad valorem tax purposes; to increase the amount of the exemption

serve terms not to exceed four years.

from ad valorem taxation by a school district applicable to residence homesteads from \$40,000 to \$100,000; to adjust the amount of the limitation on school district ad valorem taxes imposed on the residence homesteads of the elderly or disabled to reflect increases in certain exemption amounts; to except certain appropriations to pay for ad valorem tax relief from the constitutional limitation on the rate of growth of appropriations; and to authorize the legislature to provide for a four-year term of office for a member of the board of directors of certain appraisal districts."

Proposition Number 5 (HJR 3)

HJR 3 proposes a constitutional amendment to redesignate the national research university fund as the Texas University Fund (TUF), and to appropriate funds from the economic stabilization fund to the TUF. The proposed amendment would appropriate to the TUF an amount equal to the interest income, dividends, and investment earnings attributable to the economic stabilization fund for the preceding state fiscal year. The appropriation amount could not exceed \$100 million for the state fiscal year beginning September 1, 2023, or an amount adjusted for the increase in the general price index, not to exceed two percent, in subsequent state fiscal years. The proposed amendment also would prohibit any state university that is entitled to participate in dedicated funding provided by Article VII, Section 18 of the Texas Constitution from receiving money from the TUF.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment relating to the Texas University Fund, which provides funding to certain institutions of higher education to achieve national prominence as major research universities and drive the state economy."

Proposition Number 6 (SJR 75)

SJR 75 proposes a constitutional amendment to create the Texas water fund. The Texas water fund would be a special fund in the state treasury outside the general revenue fund, administered by the Texas Water Development Board (TWDB) or its successor to assist in financing water projects in the state. The proposed amendment would direct the Texas water fund administrator to use the fund only to transfer money to other TWDB funds or accounts. The proposed amendment would authorize the legislature to appropriate money for deposit to the water fund to be available for permitted transfers. No further legislative appropriation would be required for the water fund administrator to transfer money from or restore money to the fund, including the transfer of money to or the restoration of money from certain designated TWDB funds and accounts. The water fund would consist of: (1) money transferred or deposited to the fund by general law; (2) other revenue that the legislature by statute dedicates for deposit to the fund; (3) investment earnings and interest earned on amounts credited to the fund; (4) money from gifts, grants, and donations to the fund; and (5) money returned from any authorized transfer. The proposed amendment would require the legislature, by general law, to provide for the manner in which money from the Texas water fund may be used. The proposed amendment also would require that at least 25% of the money initially appropriated to the Texas water fund be transferred to the New Water Supply for Texas Fund.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment creating the Texas water fund to assist in financing water projects in this state."

Proposition Number 7 (SJR 93)

SJR 93 proposes a constitutional amendment to establish the Texas energy fund. The Texas energy fund would be a special fund in the state treasury outside the general revenue fund, administered by the Public Utility Commission of Texas (PUC) or its successor. Money in the Texas energy fund could be used, without further appropriation, only by PUC or its successor to provide loans and grants to finance or incentivize the construction, maintenance, modernization, and operation of electric generating facilities necessary to ensure the reliability or adequacy of an electric power grid in the state. The proposed amendment would require PUC to allocate money from the fund for loans and grants to eligible projects for electric generating facilities that serve as backup power sources and in each region of the state that is part of an electric power grid in proportion to that region's load share. The Texas energy fund would consist of: (1) money credited, appropriated, or transferred to the fund by or as authorized by the legislature; (2) revenue that the legislature dedicates for deposit to the fund; (3) the returns received from the investment of the money in the fund; and (4) gifts, grants, and donations contributed to the fund.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing for the creation of the Texas energy fund to support the construction, maintenance, modernization, and operation of electric generating facilities."

Proposition Number 8 (HJR 125)

HJR 125 proposes a constitutional amendment to create the broadband infrastructure fund. The broadband infrastructure fund would be a special fund in the state treasury outside the general revenue fund, administered by the Texas Comptroller of Public Accounts (Comptroller). Money from the fund could be used, without further appropriation, only for the expansion of access to and adoption of broadband and telecommunications services. The broadband infrastructure fund would consist of: (1) money transferred or deposited to the fund by the Texas Constitution, general law, or the General Appropriations Act; (2) revenue that the legislature by general law dedicates for deposit to the fund; (3) investment earnings and interest earned on money in the fund; and (4) gifts, grants, and donations to the fund. The proposed amendment would authorize the Comptroller to transfer money from the broadband infrastructure fund to another fund as provided by general law, and the state agency that administers the fund to which any money is transferred could use the money without further appropriation only for the expansion of access to and adoption of broadband and telecommunications services. The broadband infrastructure fund would expire on September 1, 2035, unless extended by adoption of a joint resolution of the legislature. Immediately before the expiration of the fund, the Comptroller would be required to transfer any unexpended and unobligated balance remaining in the broadband infrastructure

The proposed amendment will appear on the ballot as follows: "The constitutional amendment creating the broadband infrastructure fund to expand highspeed broadband access and assist in the financing of connectivity projects."

fund to the general revenue fund.

Proposition Number 9 (HJR 2)

HJR 2 proposes a constitutional amendment to authorize the legislature to provide a cost-of-living adjustment to eligible annuitants of the Teacher Retirement System of Texas (TRS). The proposed amendment also would authorize the legislature to appropriate money from the general revenue fund to the Texas Comptroller of Public Accounts to pay the cost-of-living adjustment.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the 88th Legislature to provide a cost-of-living adjustment to certain annuitants of the Teacher Retirement System of Texas."

Proposition Number 10 (SJR 87)

SJR 87 proposes a constitutional amendment to allow the legislature to exempt from property taxation tangible personal property held by a medical or biomedical manufacturer as a finished good or used in the manufacturing or processing of medical or biomedical products.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize the legislature to exempt from ad valorem taxation equipment or inventory held by a manufacturer of medical or biomedical products to protect the Texas healthcare network and strengthen our medical supply chain."

Proposition Number 11 (SJR 32)

SJR 32 proposes a constitutional amendment to expand the authority of the legislature with regard to conservation and

reclamation districts in El Paso County. The Texas Constitution permits conservation and reclamation districts in certain counties across the state to issue bonds to fund the development and maintenance of parks and recreational facilities but does not currently provide this authority to El Paso County. The proposed amendment would add conservation and reclamation districts in El Paso County to those districts currently allowed, if authorized by general law, to issue bonds supported by property taxes to fund the development and maintenance of parks and recreational facilities. The proposed amendment would not limit the powers of the legislature or of a conservation and reclamation district with respect to parks and recreational facilities as those powers currently exist.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the legislature to permit conservation and reclamation districts in El Paso County to issue bonds supported by ad valorem taxes to fund the development and maintenance of parks and recreational facilities."

Proposition Number 12 (HJR 134)

HJR 134 proposes a constitutional amendment to abolish the office of County Treasurer in Galveston County. The amendment would authorize the Galveston County Commissioners Court to employ or contract with a qualified person or designate another county officer to perform any functions that would have been performed by the County Treasurer. The proposed amendment would take effect only if a majority of the voters of Galveston County voting on the proposition favor the amendment.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing for the abolition of the office of county treasurer in Galveston County."

Proposition Number 13 (HJR 107)

HJR 107 proposes a constitutional amendment to increase the mandatory retirement age for state justices and judges. Currently, the Texas Constitution establishes that justices and judges of the appellate courts, district courts, and criminal district courts must retire on the expiration of the term during which they reach the age of 75 years or an earlier age, not less than 70 years, as the legislature may prescribe. The proposed amendment would change the mandatory retirement age for justices and judges of the appellate courts, district courts, and criminal district courts to 79 years or an earlier age, not less than 75 years, as the legislature may prescribe. The proposed amendment also would remove the provision stating that justices and judges may only serve until December 31 of their fourth year in office if they reach the age of 75 years in the first four years of a six-year term.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to increase the mandatory age of retirement for state justices and judges."

Proposition Number 14 (SJR 74)

SJR 74 proposes a constitutional amendment to establish the centennial parks conservation fund as a trust fund outside the state treasury. The fund could be used, in accordance with general law, only for the creation and improvement of state parks. The centennial parks conservation fund would consist of: (1) money appropriated, credited, or transferred to the fund by the legislature; (2) gifts, grants, and donations received by the Texas Parks and Wildlife Department (TPWD) or its successor for a purpose for which money in the fund may be used; and (3) investment earnings and interest earned on amounts credited to the fund. The proposed amendment would authorize the legislature to appropriate money from the centennial parks conservation fund to TPWD or its successor for the creation and improvement of state parks.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing for the creation of the centennial parks conservation fund to be used for the creation and improvement of state parks."

Published by The Office of the Texas Secretary of State, www.sos.texas.gov, 1/800-252-VOTE (8683).

Crosby v Lee,

CONTINUED FROM PAGE 1

ed lead with a 1-yard run into the end zone by Yarbrough eating up 8:15 off the clock. With 6:45 remaining in the third quarter, the Ganders put together a time-consuming 12-play 79-yard drive that ended with a Duncan 22-yard pass to Kylan Williams for the touchdown.

Momentum seemed to shift to the Ganders with the TD and Head Coach Tim Finn gambled on the kickoff with an on-side kick surprising the Cougars recovering the ball at the Cougar 48. Four plays later, QB Duncan connected with Williams again, this time for a 25-yard catch in the end zone. Guzman's PAT tied the game up 28-28 with 11:13 remaining in the fourth quarter.

Both teams went on a scoring spree to take the advantage.

Yarbrough punched the ball in from the 2-yard line with 9:03 remaining to give the Coogs a 35-28 temporary lead.

Lee's Radavion Taylor scampered 11-yards to bring the Ganders within 1 point. Gander coach Finn gambled again and a Duncan pass to Josiah Joseph for the 2-point conversion gave Lee what seemed like

the lead and probable win with only 1:26 ticks left on the clock.

Crosby, however, would shock the Ganders when Yarbrough broke free from the line of scrimmage and bolted 54-yards into the end zone. Needing a two-point conversion, Coach Joe Willis rolled the dice and Fontenot ran the ball in to give the Coogs a 43-36 lead with only 45 seconds left in the game.

In what appeared to be a breakdown by Crosby special teams, Lee freshman Josh Marquez took the kickoff at the Lee 30-yard line and ran it back to the Crosby 37.

Aided by a pass interference call at the end zone, Duncan found Joseph in the end zone with a 17-yard pass for the touchdown. Trailing 43-42, the Ganders' Finn gambled again and went for the two-point conversion. Taylor found an opening on the left side and ran the ball in, giving Lee the win, 44-43.

It's the first time Crosby has started the season 0-3 since the 2019 campaign when they opened with losses to New Caney (28-8), Manvel (39-27), and Vidor (37-27). The Coogs are also 0-1 in district.

and the CHS cheerleaders. "The fire department and EMS will have numerous vehicles in the front and back of the parade, Precinct Three Commissioner Tom Ramsey's folks will have several vehicles, and Pct. Three Constable Sherman Eagleton will have several vehicles as well," Foster said. Texas All Star Jeeps will have a dozen or more in the parade and a refurbished Mc-Cormick Farmall 140 tractor from 1964. Expect floats, motorcycles, muscle cars, and antique show cars scattered throughout the parade, and yes, even Miss Jewel, the donkey from St. Francis Creative Farms Mobile Petting Zoo.

10:15 AM Shortly into the parade, the town of Crosby will receive a U.S. Army military salute with a flyover by the 1st Assault Helicopter Battalion, 158th Aviation Regiment, nicknamed the "Ghostriders", who is headquartered in Conroe, Texas. The battalion flies UH-60 Black Hawks as part of the United States Army Reserve's 11th Theater Aviation Command.

11:30 AM The parade should end by now and crowds will migrate to the Crosby Fair & Rodeo grounds. Jeremy Reagan takes the stage to begin playing and more than 90 vendors will open their booths to the public. Food trucks will begin serving and remain into the night. Food vendors include Taqueria El Regio, Birdz Bitez, La Cruda BBQ, Chick-Fil-A, The Good Stuff Italian Ice, Simply Sweets and Kettle Corn, and Gelu Italian Ice Baytown. The Car Show begins at the American Legion Hall next door to the fairgrounds.

12:15 PM Carol's Dance and Gymnastics perform at the Pavilion area.

1:00 PM Crosby-Huffman Chamber of Commerce hosts a ribbon cutting ceremony kicking off the celebration of 200 years with a Bicentennial cake made by the students of Crosby Bistro from CHS. Davenport, who has guided the committee was voted unanimously as the Crosby community representative to cut the ribbon. The Crosby community will also be the recipient of numerous proclamations by state and local governments all read in the Pavilion area.

1:15 PM The Crosby Dance Academy performs in the Pavilion area.

2:00 PM The Car Show Awards begin at the American Legion, 14890 FM 2100, and The 22s take the stage to play in the Pavilion area.

3:00 PM A huge Cornhole Tournament begins at the Crosby American Legion, 14890 FM 2100.

3:30 PM A live auction begins in the Pavilion area with beautiful quilts, prints from the early years of Crosby and many other unique items.

4:15 PM Bob Suttie takes the stage in the Pavilion area.

5:30 PM Cody Kouba starts playing in the Pavilion area.

6:00 PM The Crosby Bicentennial officially closes with the cannon firing once again, this time from behind the American Legion. Food Trucks can stay until 9 p.m. when the last band is finished.

7:00 PM Leroy Thomas and The Zydeco Roadrunners begin playing. The event ends at 9 p.m.

There are several exhib-

its of note for residents throughout the day. St. Francis Creative Farms Mobile Petting Zoo is available to kids as well as several small carnival rides. Life Flight will land their helicopter on the rodeo grounds and will be available for tours. Several fire. EMS, law enforcement vehicles will also be available for the public to view and explore. The Texas Rangers and DPS will have their mobile museum open to the public. A group of Crosby Fair & Rodeo members have created a salsa just for the bicentennial occasion called "1823," a nod to the first year of Crosby's existence. Other unique items will be books, train whistles, and Crosbv postcards offered by the Crosby Historical Society. The chamber of commerce will be selling Crosby Cookbooks with tons of recipes including numerous kolaches. The Society for the Preservation and Appreciation of Antique Motorized Firefighting of America will have two antique fire trucks available for viewing. The Texas Parks and Wildlife will also have a vehicle and boat for kids to check out. The Alamo will have three cannons on site, and kids can meet the Harris County Sheriff's mascot McGruff. San Felipe de Austin will be handing out copies of the original Humphries land grant.

Next week, the Star-Courier will publish a Bicentennial Souvenir Edition with a short story of the history of Crosby, photos from the early years, a list of vendors and a vendor map, a parade route map, and much more.

Barge moorings in the SJ River,

CONTINUED FROM PAGE 1

strikes to the SJR Bridge and the SJR Waste Pits Superfund Site.

Public comments are due by: Wednesday, September 13, 2023

Approval of this permit will:

1. allow for the privatization of our public San Jacinto River waterway for private use and profit

2. create a barge mooring area and a floating chemical storage area in a FEMA Special Hazard Floodway

3. create barge mooring areas and installing floating chemical storage areas in the SJR near homes

4. prohibit and endanger public use of the SJR

5. endanger Meadowbrook Park, residential properties, I-10, the San Jacinto Waste Pits Superfund Site devalue residential properties

Each application appears to follow after complaints from community members are filed with the USACE of unpermitted construction and dredging by Holtmar/Buffalo or their other entity Tim-Tom Land Holdings. Community members have documented the unpermitted activities of dredging, land reclamation, pile driving, construction land and wetland fill and aquatic estuary destruction. Per Holtmar's own submitted project plans the project site has increased in elevation since 2015 to 2023 from 3 feet to 7 feet even though the area suffers from subsidence and flood erosion. This latest LOP application follows community complaints of Buffalo's creation of a barge mooring area in the SJR just west of the project

After 8 years of community members witnessing the unpermitted actions by Holtmar/TimTom/Buffalo the USACE on this latest LOP states "Permits issued for activities or work within the SJWP-AOC shall contain the following language: "By accepting this permit, the permittee

agrees to accept potential liability for both costs and natural resource damages, to the same extent as would be inherent under the Comprehensive Environmental Response and Liability Act 1980 (CERC-LA) as amended (42 U.S.C. 9601 et. Seq.) Further, the permitee agrees that this permit does not exclude the permitee from liability for response costs, damages, and any other costs that may be assessed under the CERCLA." as if this statement will negate the unpermitted actions already taken, will ensure the permittee will no longer participate in additional unpermitted activities, will be responsible for damages to the community members personal property and health.

Thank you for prompt attention to this urgent matter and in stopping barges in the public waterway of the San Jacinto River.

Comments should be submitted by email to: Brian.J.Bader@usace.army.mil Phone #409 766-3037

Or mailed to: Brian J. Bader, Galveston District, Corps of Engineers, P. O. Box 1229, Galveston, TX 77553-1229

If you prefer Texas Health & Environmental Alliance (THEA) has prepared a petition in opposition of the project and requesting a public hearing you can sign and THEA will submit it to all emails and addresses for you. The link to THEA's petition is: h t t p s : //www.cognitoforms.com/THEA1/USACESJR-CLOP920232
